Join Us as
James Ray, 2008 WSS-ACSM Secretary
Conducts a Technical Presentation on

Techniques and Technologies of the Total Station Today

James Ray will discuss the latest in total station and data collector techniques and technologies: "free stationing," resections, precise trigonometric leveling, and "reflector less" DM. He will share how these were combined to create a "Precise 3D" method of field data collection that greatly increases accuracy and efficiency.

This is an informal, informational presentation hosted by the Washington State Section of the American Congress on Surveying and Mapping.

We have limited room, so please let me know if you plan to attend by forwarding an email to TimLeach3@comcast.net as soon as possible.

Dinner meeting price is **\$30.00** and
\$10.00 for students.
